The NHS Retirement Fellowship is the social, leisure, educational and welfare organisation for retired or about to retire NHS staff, health and social care sector staff and individual practitioners such as dentists, opticians and pharmacists. Their partners and friends are also welcome.

Membership of the Fellowship provides a bridge between life in employment and opportunities in retirement. Time is spent with like-minded people, enjoying existing friendships, making new friends and enjoying ourselves together.

The Fellowship is a registered charity (Registered charity no. 287936) with approximately 7000 members and was established in 1978.

Membership benefits include discounts on holidays, insurance and shopping.
